

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

February 11, 2000 LB 950

in line 22, through 23 and insert a period; and then we renumber the remaining sections. The main thing is that we, it's technical, just cleaning up some language, and then also we are encouraging the Department of Health and Human Services to apply for all federal funds that may be available to implement the Infant Hearing Act. That's all the amendment does. I would urge adoption of the amendment.

SENATOR CUDABACK: Thank you, Senator Jensen. Those wishing to speak, if you do not wish to speak on the committee amendments, just say so. Senator Bohlke, did you wish to speak on the...she waives clos...waives speaking on the committee amendments. Senator Dwite Pedersen? He waives. Senator Wehrbein, on the committee amendments?

SENATOR WEHRBEIN: (Microphone malfunction) ...when the appropriate time is to talk about the cost of this, and I hate to bring these things up. I was looking at the fiscal note and I'm trying to understand, Senator Byars, how would you say the impact of the fiscal note is on the committee amendments? And I think I grasp what this is all...I understand took the insurance...mandate insurance out, mandated insurance compan...is this primarily going to be for Medicaid patients?

SENATOR CUDABACK: Do you yield to a question, Senator Byars?

SENATOR WEHRBEIN: Is...and I'd like another question or two. Is it true now the private pay, so to speak, pay this themselves, and so this primarily is an impact on those Medicaid patients, expanding that coverage? Is that accurate?

SENATOR CUDABACK: Senator Byars.

SENATOR BYARS: Thank you, Senator Cudaback. Yes, Senator Wehrbein, this is the Medicaid, this would be the portion of our Medicaid dollars. There are a certain number, that there is some dollars in for a tracking system and for...well, we're debating on how many people it takes to cover this program. In the other states where it has been implemented they haven't needed this many people to work the program. They haven't needed this kind of tracking system, but most of the dollars are the Medicaid related dollars, Senator Wehrbein.
